

The General Demand

of the Well-Informed of the World has always been for a simple, pleasant and efficient liquid laxative remedy of known value; a laxative which physicians could sanction for family use because its component parts are known to them to be wholesome and truly beneficial in effect, acceptable to the system and gentle, yet prompt, in action.

In supplying that demand with its excellent combination of Syrup of Figs and Elixir of Senna, the California Fig Syrup Co. proceeds along ethical lines and relies on the merits of the laxative for its remarkable success.

That is one of many reasons why Syrup of Figs and Elixir of Senna is given the preference by the Well-Informed. To get its beneficial effects always buy the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists. Price fifty cents per bottle.

Socialism in Japan.

Socialism has no footing in this country as yet, nor is there any indication that it will gain a footing in the near future at all events. Prior to the war with Russia a small coterie of men calling themselves socialists argued vehemently against the opening of hostilities and published a newspaper organ to propagate their creed. But they soon dwindled into insignificance, and although a periodical of so-called socialist views continues to be published it has no influence, nor does it serve any purpose, apparently, except to furnish material for occasional comment on the part of amused readers.—Japanese Weekly Mail.

EGOISM.

Mistress—Bridget, it always seems to me that the crankiest mistresses get the best cooks.

Cook—Ah, go on wid yer blarney!

SPOHN'S DISTEMPER CURE will cure any possible case of DISTEMPER, PINK EYE, and the like among horses of all ages, and prevents all others in the same stable from having the disease. Also cures chicken cholera, and dog distemper. Any good druggist can supply you, or send to manufacturers, 50 cents and \$1.00 a bottle. Agents wanted. Free book, Spohn Medical Co., Spec. Contagious Diseases, Goshen, Ind.

Incomplete.

Young Mother—George, I want to show you baby's new carriage. See—it is collapsible.

Bachelor Brother—I see it is, but what good does that do? It's the baby that ought to be collapsible, Alvin.

HELPFUL ADVICE

You won't tell your family doctor the whole story about your private illness—you are too modest. You need not be afraid to tell Mrs. Pinkham, at Lynn, Mass., the things you could not explain to the doctor. Your letter will be held in the strictest confidence. From her vast correspondence with sick women during the past thirty years she may have gained the very knowledge that will help your case. Such letters as the following, from grateful women, establish beyond a doubt the power of

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

to conquer all female diseases. Mrs. Norman R. Barnitt, of Allentown, Pa., writes:

"Ever since I was sixteen years of age I had suffered from an organic derangement and female weakness; in consequence I had dreadful headaches and was extremely nervous. My physician said I must go through an operation to get well. A friend told me about Lydia E. Pinkham's Vegetable Compound, and I took it and wrote you for advice, following your directions carefully, and thanks to you I am today a well woman, and I am telling all my friends of my experience."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration.

ORDER IN THE KITCHEN.

How Time and Labor May Be Saved in Preparing Meals.

Order is like every other quality of character—good in moderation, but as bad in the extreme as its lack. The average woman finds it restful to have a place for everything, but the danger is in having inconvenient places. If the kitchen is large enough, it is best to have one table or sink for the preparation of vegetables only, another for desserts and one oilcloth covered place for fixing meats, polishing knives and other dirty work. The pans and knives used especially for each of these three operations should be hung or stowed within easy reach of that particular corner, together with the condiments and dry groceries used. Then use laboratory methods in cooking preparations. Try to prepare only one dish at a time for the stove. Begin by getting all your materials together, as, for instance, the flour, butter, eggs and spices for cake and all the mixing dishes. Then sit down to it on a high stool, if possible, with a good-sized clear space to work on. This will save a great deal of time compared to the common manner of trotting feverishly from carrots to cantaloupes, shoving all sorts of things in a clutter to make room, and then searching wildly for a needed article.

TO WASH PRINT GOODS.

Great Care Required to Prevent Them from Losing Color.

Prints require great care in washing, or they will lose their color. To do those with fast colors, put enough melted soap in warm but not hot water; have a second water ready with a little melted soap, also warm. There must be no alkali at all. Wash article quickly in first water, then in second. Rinse well, fold, and hang up to dry. Repeat till all are finished.

Prints with doubtful colors are washed in the same way in the first two waters. Into the rinsing water put some salt or alum, which helps to fasten the colors.

If the water looks dirty in the case of black prints, rinse again and again until it looks clean. In blue, green, pink and red prints put vinegar in rinsing water to brighten the colors.

Colored cottons must on no account be soaked the day before washing, nor must they be put into water too hot. The very existence of soda must be ignored.

Prints should not be washed until they can be dried at once, as the color is apt to fade while they are wet.

Tomato Jelly.

Use the liquor drained from canned tomatoes or the juice extracted by stewing and straining the fresh vegetable. To a pint of juice add a small chopped onion, two sprigs of parsley, two cloves, a stalk of celery, a bit of bay leaf and salt and cayenne, to make snappy. Simmer 15 minutes. Have ready a half box of gelatin that has been soaked for an hour in a cupful of cold water; turn this into the boiling juice, stir until the gelatin is dissolved, remove from the fire and strain through a jelly bag into a wet mold to form. Two or three tablespoonfuls of good tomato catsup will be found a fine addition to this tomato jelly by persons wishing a high flavor; add just before removing from the fire.

Trout a L'italienne.

One good-sized trout, two chopped shallots, one teaspoonful chopped parsley, one glass of claret, four tablespoonfuls of tomato or brown sauce, salt, pepper and nutmeg.

Clean, wash and trim the fish. Well butter a fireproof dish. Failing that, a pudding dish will do. Lay in the fish, season it well with salt, pepper and nutmeg. Shake over the parsley and shallot. Put a few small pieces of butter on the top and pour over the wine.

Bake in a hot oven for about eight or ten minutes, according to the size of the fish. Baste them frequently. Boil the sauce; see that it is well seasoned. Pour it over the fish and serve in the dish it was cooked in.

To Clean Gold Ornaments.

Gold ornaments and jewelry unadorned with gems should be washed in warm soapsuds. Gold link chains may be cleaned by placing them in a bottle half full of soapsuds mixed with a little prepared chalk. After being left for a few hours the bottle should be shaken and the lather poured off. The chain should then be rinsed in cold water and thoroughly dried. Jade ornaments, it is said, may be restored by applying a paste made of chalk and water.

Elderberry Wine.

One quart of tightly packed blossoms, picked from the stems, three and one-half pounds of white sugar, one sliced and seeded lemon. Pour over this one gallon of boiling water. When lukewarm add one-half cake of compressed yeast. Let stand four days. Keep in warm place. Strain before bottling. Dandelion wine may be made by same recipe, using the tops of the flowers.

Keeping Patent Leather.

Patent leather is always doubtful leather to buy, as no one will guarantee how long it will wear. If the shoes are cleaned and oiled frequently with sweet oil or vaseline, they will keep in good condition and last very much longer than if they are left alone.

To Prevent Boiling Over.

A teaspoonful of butter put into the water in which vegetables are boiling will prevent them from bubbling over.

ONE KIDNEY GONE

But Cured After Doctors Said There Was No Hope.

Sylvanus O. Verrill, Milford, Me., says: "Five years ago a bad injury paralyzed me and affected my kidneys. My back hurt me terribly, and the urine was badly discolored. Doctors said my right kidney was practically dead. They said I could never walk again. I read of Doan's Kidney Pills and began using them. One box made me stronger and freer from pain. I kept on using them and in three months was able to get out on crutches, and the kidneys were acting better. I improved rapidly, discarded the crutches and to the wonder of my friends was soon completely cured."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Wanted to Go the Same Way.

We were taking a little trip into the country. The only vacant seats in the train were turned so as to face each other. I told my little girl, four years old, to take the seat in front of me, as riding backward would not make her sick. She hesitated, and said:

"I know it won't make me sick, but if I ride backward will I go to the same place you are going to?"

Microscopic Writing.

A remarkable machine made by a lately deceased member of the Royal Microscopical society for writing with a diamond seems to have been broken up by its inventor. A specimen of its works is the Lord's prayer of 227 letters, written in the 1,237,000 of a square inch, which is at the rate of 53,880,000 letters or 15 complete Bibles, to a single square inch. To decipher the writing it is necessary to use a 1-12-inch objective, which is the high power lens physicians employ for studying the most minute bacteria.

Populus China.

The population of the Chinese empire is largely a matter of estimate. There has never been such census of the empire as that which is taken every decade in this country. But the estimate of the Almanach de Gotha for 1900 may be taken as fairly reliable. According to that estimate, the population of the empire is, in round numbers, about 400,000,000. It is probably safe to say that if the human beings on earth were stood up in line every fourth one would be a Chinaman.

TOO TRUE TO BE GOOD.

Pinxit—I have just finished the late Mrs. Peck's portrait. It's a speaking likeness.

The Widower Peck—Would it be too much trouble to—er—change it a bit in that respect?

Women Fishermen.

On the coast of Holland, Belgium and Northern France the fishermen are a familiar sight, with their great hand nets and quaint costumes. Many of the towns have distinctive costumes by which their women can be recognized anywhere. Those of Mana-Kirke, near Ostend, wear trousers and loose blouses, while their heads and shoulders are covered by shawls. They carry their nets into the sea and scoop up vast quantities of shrimps and prawns, with an occasional crab or lobster and many small fish. They often wade out till the water is up to their necks, and they remain for hours at a time in water above their knees, rarely returning until their baskets are full.

AFRAID TO EAT.

Girl Starving on Ill-Selected Food.

"Several years ago I was actually starving," writes a Me. girl, "yet dared not eat for fear of the consequences. I had suffered from indigestion from overwork, irregular meals and improper food, until at last my stomach became so weak I could eat scarcely any food without great distress."

"Many kinds of food were tried, all with the same discouraging result. I steadily lost health and strength until I was but a wreck of my former self. Having heard of Grape-Nuts and its great merits, I purchased a package, but with little hope that it would help me—I was so discouraged."

"I found it not only appetizing but that I could eat it as I liked and that it satisfied the craving for food without causing distress, and if I may use the expression, 'it filled the bill.' For months Grape-Nuts was my principal article of diet. I felt from the very first that I had found the right way to health and happiness, and my anticipations were fully realized."

"With its continued use I regained my usual health and strength. To-day I am well and can eat anything I like, yet Grape-Nuts food forms a part of my bill of fare." "There's a Reason." Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

AVOID RISK IN BUYING PAINT.

You take a good deal of risk if you buy white lead without having absolute assurance as to its purity and quality. You know white lead is often adulterated, often misrepresented. But there's no need at all to take any chances. The "Dutch Boy Painter" trade mark of the National Lead Company, the largest makers of genuine white lead, on a package of White Lead, is a positive guarantee of purity and quality. It's as dependable as the Dollar Sign. If you'll write the National Lead Company, Woodbridge Bldg., New York City, they will send you a simple and certain outfit for testing white lead, and a valuable book on paint, free.

SHE GOT HER MAN—HAPPY.

Indian Woman Not Likely to Be Left Far Behind in Life's Battle.

Writing of the famous Dean Kaye of Topeka, in Suburban Life, Paul A. Lovewell, says:

"Dean Kaye has had interesting experiences during his sojourns in the wilderness. Once an Indian woman came to his cabin."

"You marry?" she asked.

"Yes," said the dean, "I can marry folks. Have you got a man?"

"Again the woman grunted, and departed. About sundown she returned, dragging with her an apparently abashed and reluctant brave. "Got him," she remarked, laconically, producing her marriage license. The man knew no English, but the woman prompted him when it became necessary for him to give his assent to the dean's questions. When it was over the squaw paid the minister his fee and led her husband away in triumph."

DEEP CRACKS FROM ECZEMA

Could Lay Slate-Pencil in One—Hands in Dreadful State—Permanent Cure in Cuticura.

"I had eczema on my hands for about seven years and during that time I had used several so-called remedies, together with physicians' and druggists' prescriptions. The disease was so bad on my hands that I could lay a slate-pencil in one of the cracks and a rule placed across the hand would not touch the pencil. I kept using remedy after remedy, and while some gave partial relief, none relieved as much as did the first box of Cuticura Ointment. I made a purchase of Cuticura Soap and Ointment and my hands were perfectly cured after two boxes of Cuticura Ointment and one cake of Cuticura Soap were used. W. H. Dean, Newark, Del., Mar. 28, 1907."

ONLY A COW.

Artist (who has been bothered by rustics breathing on him all the morning)—My good fellow, I assure you that you can see the sketch with more advantage from a little distance!

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. Sold by all Druggists. Take Hall's Family Pills for constipation.

Contrast in Wills.

If, as is stated, the will of the late duke of Devonshire contains nearly 18,000 words, it is certainly entitled to rank high among long-winded testaments.

Probably the shortest will on record was that of a Streatham gentleman, proved a few years ago, which consisted of the words: "All for mother. C. T."—Westminster Gazette.

COFFEE

The dealing is simple. If you don't like Schilling's Best, it costs you nothing.

Your grocer returns your money if you don't like it, we pay him.

Rest at Last.

"It is only too true," remarked the man who was fond of moralizing, "that we do not appreciate our blessings until they take their flight."

"Of course," replied Popple, "they keep up such a racket during the day that we enjoy them most when the nurse has tucked them in their little beds."—Philadelphia Press.

No Room to Pass.

"Was I scared?" exclaimed Miss Lacer, "well, I should say! My heart simply sank down into my boots."

"Impossible!" retorted her candid friend, "it couldn't possibly get past your waist."—Philadelphia Ledger.

His Motive.

Finding nothing of a portable nature in the unguarded freight car except a box of soap the hobo picked it up and carried it away.

"It lessens de visible supply," he said, as he dumped it in the river.

LEST HE FORGET.

No Rosette Postcard Without Its Thorn of Suggestion.

Harold's mother—we'll call him Harold—went abroad a month ago, leaving Harold under the somewhat unsatisfactory control of his elder sisters. In spite of the itemized directions with which even unto the moment of final leave-taking she had not ceased to bombard him, Harold's mother was far from sure that her efforts would have any lasting effect.

Her voyage was more or less disturbed by these doubts, but before she landed on the other side she had determined on a course of action. Like all small boys, Harold is most covetous of picture postcards and had looked forward to a harvest from his mother's trip. He got it.

Every day she sent at least one card. And whatever else it bore in the way of inscription, there was not one which failed of this introduction:

"Just as soon as you get this go and brush your teeth."

A Doctor's Disadvantage.

"In one way," said a collector, "it is easier to get money from a doctor than anybody else who is slow pay. It is more difficult for him to swear that he hasn't been able to make any collections himself since the first of the year. A doctor's reception room is open to all possible patients. A collector with a grain of ingenuity can find a way to worm out of the men on the waiting list information as to the terms of payment. After an interview with three or four persons who have paid spot cash for treatment and who have told the collector they paid, it takes a mighty nerve on the part of the doctor to insist that he hasn't a dollar to his name."

A Believer.

"Do you believe in telepathy?" asked the mystical person.

"What do you mean by telepathy?" asked Mr. Dustin Stax.

"Thought transfer—the faculty that enables one person to know what another person is thinking about."

"Oh, yes. There's my old friend, Mr. Skinbottle. I know what he's thinking about this very minute."

"What is it?"

"Money."

Mrs. Winslow's Soothing Syrup.

For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.
